

CELEBRATE

November 2021

Hannah

November is celebration month for students. Special projects are completed. School is wrapping up and students receive recognition for all their efforts. It is also rainy season so hanging laundry and getting it dry is a reason to celebrate! We are so thankful for internet and friends who send us many updates and pictures so that despite missing the celebrations, we can share from a distance. In turn, we want to share with you too.

Giggle

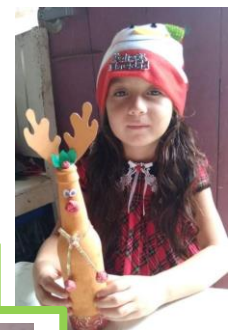

It's slow tourist season on the island. Belkis and her brother were able to travel to the mainland to visit family and tour some places they had never been. I really shouldn't enjoy these two pictures so much - Marcio is a 15-year-old. But - we have had a few giggles at Marcio's expense.

School Projects

Keliani-clay pot

Genesis - reindeer

Owen - sketch of - me?

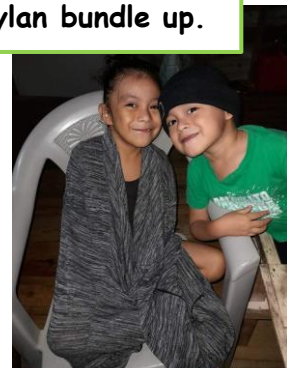

Rainy Season

There's lots of water to fill the water barrels, but few days to wash (outside) and dry laundry.

Rainy days are cold days. Eymi and Dylan bundle up.
